# VIBRATION PERCUSSION

sputum removal machine

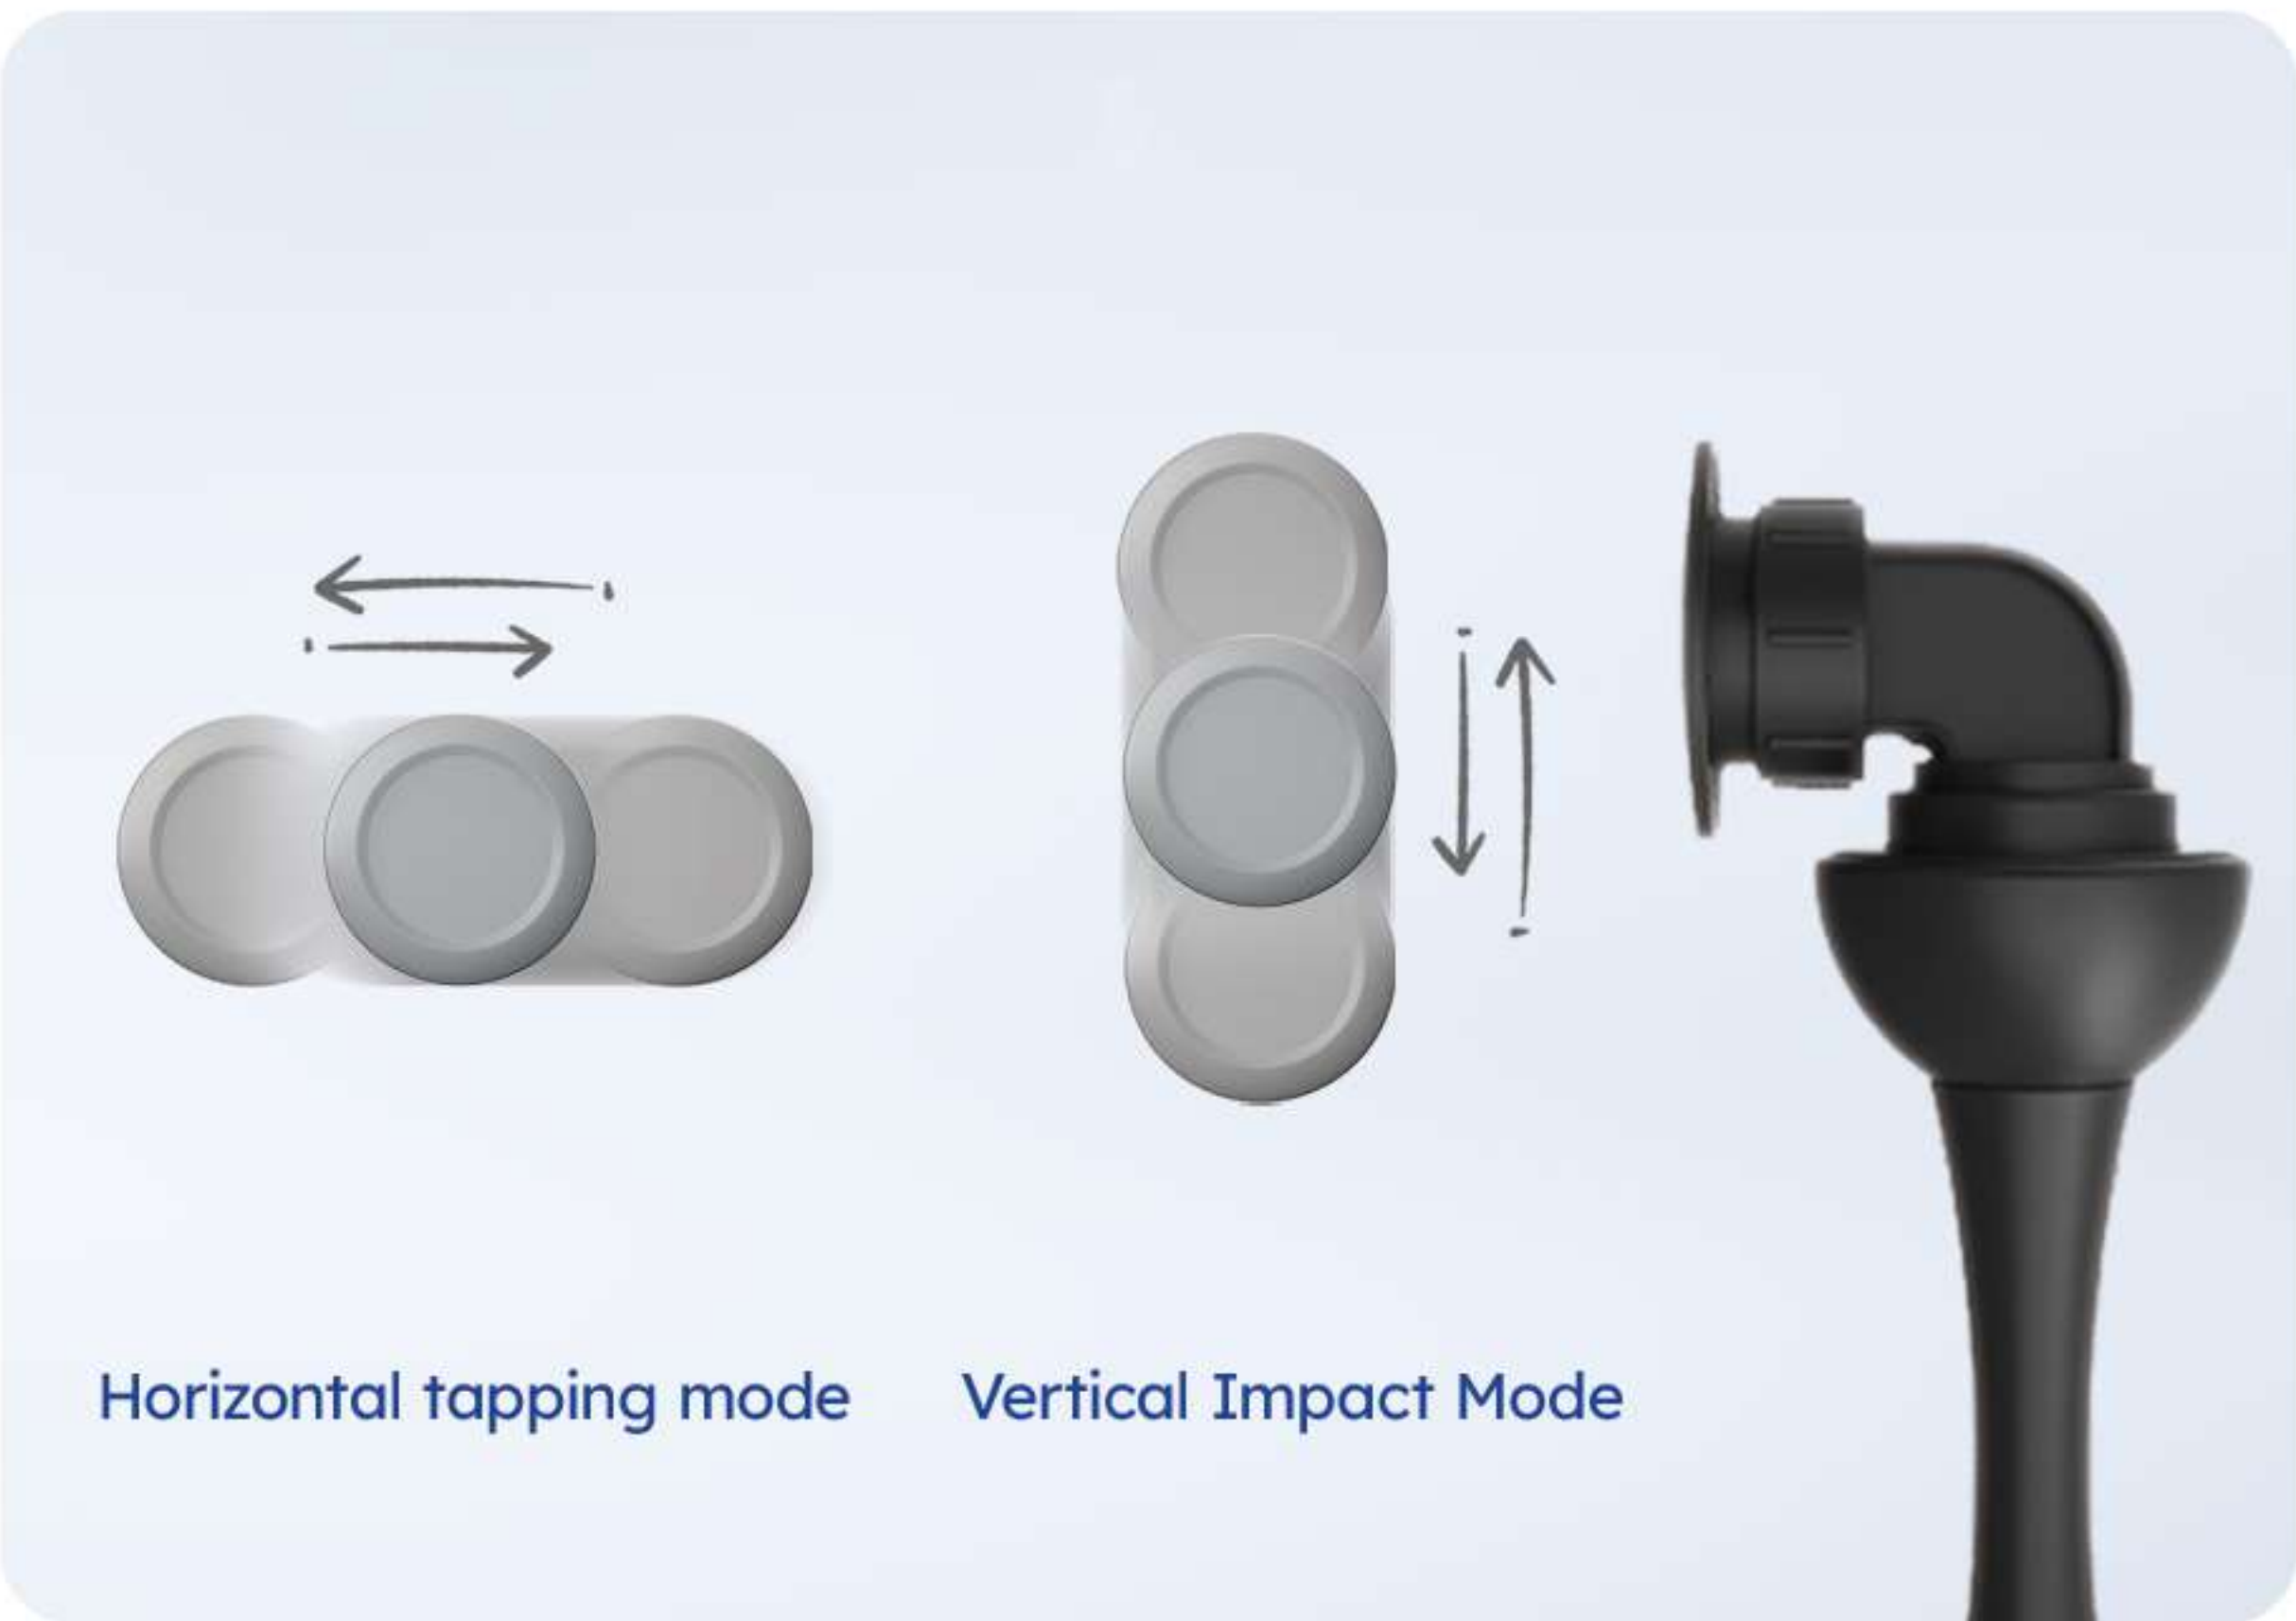

# VIBRATION PERCUSSION SPUTUM REMOVAL MACHINE

The machine is a non-invasive medical assistive device that combines vibration and percussion technologies to loosen phlegm and promote its expulsion through physical action. It is applicable to the adjuvant treatment of patients with

chronic respiratory diseases, patients in the postoperative recovery period, and people who have been bedridden for a long time and physically weak.

## PHYSICAL DIRECTIONAL PERCUSSION TECHNOLOGY

## PRINCIPLE OF OPERATION

Vibration percussion has important physiological effects on the human lung and bronchial system.

It can promote the movement of cilia in the respiratory tract, making them push the sputum towards the throat more actively and powerfully.

Increase the airflow in the respiratory tract, blow the sputum away from the mucosa and promote its discharge.

Dilate the bronchi and improve the channels for sputum discharge, thereby facilitating expectoration.

# MULTI-FREQUENCY

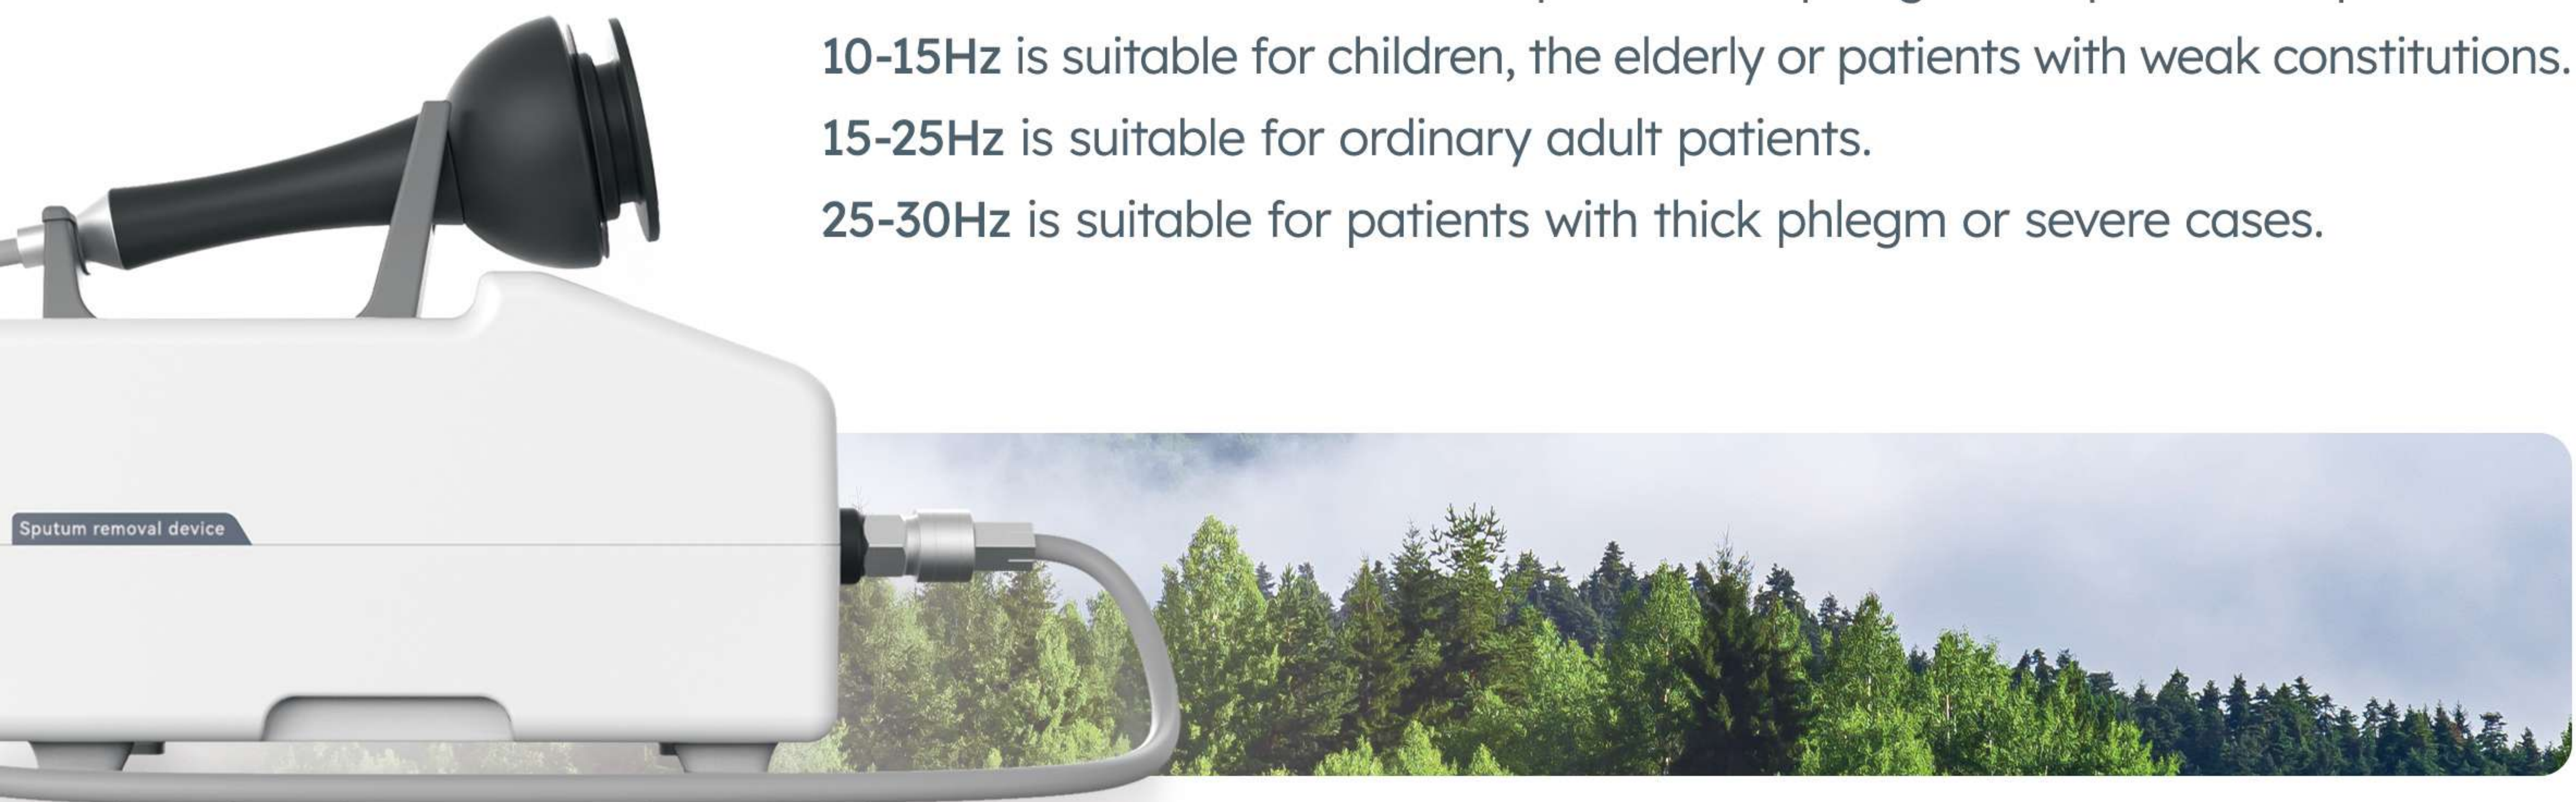

## VIBRATION PERCUSSION

adjustable from

10 to 30Hz

Equipped with a precise frequency modulation system, the frequency is adjustable from **10 to 30Hz**, meeting the needs of different patients.

The vibration force reaches deep to loosen phlegm and promote liquefaction. **10-15Hz** is suitable for children, the elderly or patients with weak constitutions. **15-25Hz** is suitable for ordinary adult patients. **25-30Hz** is suitable for patients with thick phlegm or severe cases.

## FEATURES

Non-invasive	Avoiding invasive operations, it is more comfortable and has a lower risk of infection than sputum aspiration.
Portability	The simple industrial design and lightweight body can be adapted to home scenarios.
High efficiency	Cover a larger lung area to achieve deep expectoration
Intelligent	Supports intelligent adjustment and automatically matches the vibration frequency with the tapping force.

REGISTRATION  
CERTIFICATE

中华人民共和国医疗器械注册证

注册证编号：鲁械注准 20222090755

注册人名称	淄博科创医疗器械有限公司
注册人住所	山东省淄博市张店区共青团西路 107 号壹世界数码广场五楼
生产地址	山东省淄博市张店区共青团西路 107 号壹世界数码广场五楼
代理人名称	-
代理人住所	-
产品名称	振动叩击排痰机
型号、规格	KCP-I、KCP-II、KCP-III。
结构及组成	该产品由主机、软轴、按摩头组成。主机由开关电源、控制电路、电机、触摸屏组成。
适用范围	改善患者肺部血液循环状况、协助排出呼吸道分泌物。
附件	产品技术要求：鲁械注准 20222090755
其他内容	
备注	

审批部门：山东省药品监督管理局

批准日期：2022 年 06 月 23 日

生效日期：2022 年 06 月 23 日

有效期至：2027 年 06 月 22 日

Medical Device Registration Certificate of the  
People's Republic of China

Registration Certificate Number: Lu Machinery Registration 2022090755

Model, Specification

KCP-I、KCP-II、KCP-III

Structure and  
composition

The product consists of a host, a soft shaft, and a massage head. The host is composed of a switched power supply, control circuit, motor, and touch screen.

Scope of application

Improve the blood circulation status of the patient's lungs and assist in the expulsion of respiratory secretions.

## ABOUT OUR COMPANY

---

Accurate intelligent medical care is committed to helping patients recover with the new era of artificial intelligence medical technology. We cover more than ten medical fields, such as sports and health, laser medicine, obstetrics, rehabilitation, dermatology, rheumatology and immunology and others. We have a 9,000-square-meter production base, an independent biological laboratory, and a doctoral R&D team of over 30 people.

Over more than two decades of industry experience, we have always prioritized the efficacy of our products and the patient experience.
